1961 PRICE LIST
OF AFRICAN VIOLET LEAVES
EFFECTIVE UNTIL FEBRUARY 1, 1962

..... when our new list will be mailed. To speed your order, please use one of our order blanks, and order early.

PLEASE READ THE FOLLOWING CAREFULLY BEFORE ORDERING:

ACKNOWLEDGEMENTS and SHIPPING DATES: Orders received from January 1 until June 1 are filled in order of receipt starting April 1, and are not acknowledged. Your cancelled check will serve as acknowledgement. Orders received from June 1 through November 15 (the end of our shipping season) are usually mailed within ten to fifteen days of receipt. Orders received from November 15 until January 1 will be acknowledged and booked for spring shipment. However, we will mail orders to southern states until December 1st.

BUYING AT GREENHOUSE: Our business is almost entirely in rooted leaves sold by mail. Only in this way can we give our customers as quick service as possible. However, the greenhouse is open every Friday morning to sell rooted leaves to the local trade and others.

If you are in the area anytime and wish to see me, please don't hesitate to stop. If I am at the greenhouse please knock so I'll know you want me. Of course, we are very busy in the Spring and early Summer, but at other times of the year we'd be glad to have you drop in. The greenhouse is located on Route 19, one mile south of Warsaw, and my office is at 41 E. Court Street in Warsaw.

FOREIGN ORDERS: Because of extra red tape, we are not mailing any orders to foreign countries this year.

GIFT CERTIFICATES: These are available from \$3.00 up. Send us your remittance and the address of the person to receive the certificate. If you wish, you can include your personal card which we'll send along with our price list and the certificate.

GUARANTEE and REPLACEMENTS: We guarantee safe delivery anywhere in the United States and always send the largest cuttings we have available. If more than 10% of your order arrives in bad condition, we will replace those varieties free of charge. All leaves are labeled and true to name. Variegated varieties may bloom a solid color at first, but usually come variegated later.

NEW PRICE LISTS: This is our BASIC LIST for the current year. At times we put out a revised list in September, and send it to our mailing list. (This includes customers of the last four years and those who have requested price lists within the past year.) If you don't receive one at that time, it means that this present list is still our complete list, so order from it in September through November 15th.

PLANTING INSTRUCTIONS: Included in each order.

POSTAGE CHARGES and MINIMUM ORDER: Our minimum order is \$3.00 plus 75¢ for postage and packing. Orders of \$5.00 or more are sent postpaid. Airmail or Special Delivery is 50¢ extra up to a \$5.00 order and 10¢ more for each \$1.00 of the order above that. At times air mail can't be used safely and extra cuttings will be sent to you instead.

To speed delivery, all orders are sent by first class mail, special handling, or "Live Plant" mail if that is expedient on nearby orders. We use blocks of commemoratives and precancels for postage.

Orders for rooted leaves and fresh-cut leaves CAN'T be sent combined, so please order your leaves all rooted or else all fresh cut.

QUESTIONS: To keep our prices low, our time must be spent on producing cuttings and shipping them. It is necessity, not choice, that prohibits us from personally answering many of your questions. We have tried to answer most of them on these pages.

SUBSTITUTES AND SPEEDING YOUR ORDER: The rooted leaves we send are started in vermiculite and should be temporarily planted back in sterile vermiculite for 7 to 10 days upon receipt. This assures adaptation to your conditions. Please list several substitutes. We don't expect to have to substitute, but it will help us immensely if we know several extra varieties you might like. Then, if we are able to include any free leaves in your order, we'll know what you prefer. At times, we have gotten way behind on orders. This is usually because of a huge demand for a certain few varieties, and rooted leaves just can't be produced overnight. 90% of the varieties we list, we have in excellent cuttings at all times. We have tried for 10 years to make our profit by keeping our same low prices on brand new varieties and increasing volume instead.

WHOLESALE: 10% discount on orders over \$30.00. Much larger discounts (50%) are given on advance orders totaling \$30.00 or more when 5 of a variety are ordered and a number of substitutes are given. These discounts do not apply to the latest group of 50 varieties just added to our list.

SPECIAL COLLECTIONS (BEGINNER and ADVANCED): These special offers are non duplicating and give a full variety of all the newest and best types of foliage and flower colors.

SPECIAL BEGINNER'S COLLECTION

Twenty varieties (our choice). All have plantlets. Rooted leaves, \$5.00. Fresh cut, \$4.50. Postpaid.

This is the best bargain we offer and is designed to even out the demand for the most popular varieties on our list. These will all have clumps of nice plantlets or single larger plantlets and be excellent or unusual varieties that should please any collector. We highly recommend this to anyone ordering from us for the first time, especially those who have just a few varieties.
